

BHARATHASHETRA DANCE STUDIO

Portal User Guide

Parent & Admin Reference

A step-by-step walkthrough of the Bharathashetra parent and admin portal — covering sign-in, payments, attendance, photos, events, and studio management.

● PARENT GUIDE ● ADMIN GUIDE

PART ONE

Parent Guide

Everything parents need to sign in, check on their child's progress, make payments, and stay connected with the studio.

GETTING STARTED — SIGNING IN

1

Open the portal

Go to the studio's website link. You'll land on the **Parent Portal** login screen by default.

2

Enter your email address

Type the email address you provided to the studio when you enrolled. This is how the portal identifies which student(s) belong to you.

Your email must already be on file with the studio. If you're unsure which email was used, contact us and we'll confirm.

3

Enter your PIN

Type your 4-digit PIN. This was shared with you by the studio when you were set up. If you've forgotten it, reach out to us.

4

Tap "Sign In"

You'll be taken to your home dashboard. If you have more than one child enrolled, you'll see all of them linked to your account.

Tip: Save the portal link to your phone's home screen for quick access each month.

HOME DASHBOARD

5

Review your dashboard

The home screen gives you a quick overview at a glance — any payment reminders, upcoming events, and quick links to the most-used sections.

6

Navigate using the tabs at the top

The navigation bar has the following sections:

- 💰 **Payments** — View and self-report monthly payment status
- ✓ **Attendance** — See your child's class attendance history
- ▶ **Videos** — Watch practice and technique videos uploaded by the studio
- 📅 **Events** — View upcoming recitals, workshops, and studio events

-  **Photos** — Browse photo albums from recitals and classes
 -  **Contact** — Send a message directly to the studio
 - **FAQ** — Quick answers to common questions
-

PAYMENTS

7

Check your payment status

Tap  **Payments**. You'll see your child's name, class day/time, and whether tuition for the current month is marked as paid or unpaid.

8

Self-report a payment

If you've already paid (cash, Zelle, check, etc.) and your status still shows unpaid, you can tap **"Mark as Paid"** to log it yourself. The studio admin will verify and confirm.

Self-reporting is just a convenience flag — it does not replace sending actual payment to the studio.

ATTENDANCE

9

View attendance history

Tap  **Attendance**. This shows a record of which classes your child was marked present or absent for. The admin marks attendance during each class.

PRACTICE VIDEOS

10

Watch practice videos

Tap  **Videos**. The studio uploads technique and practice videos here for students to reference at home. Tap any video card to open and play it.

EVENTS

Check upcoming events

Tap  **Events** to see recitals, performances, workshops, and other studio dates. Each event card shows the name, date, location, and any additional details.

If an event has a poster image, tap it to view it full size.

PHOTO ALBUMS

12

Browse photo albums

Tap  **Photos**. Photos are organized into albums by event — for example, "Recital 2025" or "Annual Day 2024." Each album card shows a collage thumbnail and the number of photos inside.

13

Open an album

Tap any album card to open it and see all the photos from that event.

14

View a photo full size

Inside an album, tap any photo to open it in a full-screen lightbox view. Tap **Close** to return to the album.

CONTACT & FAQ

15

Send a message to the studio

Tap  **Contact**. Fill in your name, subject, and message, then tap **Send**. The studio admin will receive your message and follow up with you directly.

16

Browse frequently asked questions

Tap **FAQ** for answers to common questions about classes, payments, attire, and more. Tap any question to expand the answer.

17

Sign out

When you're done, tap the **Sign Out** button in the top right corner. This is especially important if you're using a shared or public device.

PART TWO

Admin Guide

A complete walkthrough for managing student records, payments, attendance, content, and communications from the admin side of the portal.

ACCESSING THE ADMIN PORTAL

1

Open the portal

Go to the studio's portal link. You'll see the Parent Portal by default.

2

Switch to Admin view

At the top of the page, tap the toggle to switch from **Parent** to **Admin**.

3

Enter the admin password

Type the admin password when prompted and confirm. You'll be taken to the Admin Portal dashboard.

Keep this password private — do not share it with parents or students.

4

Navigate using the admin tab bar

The top navigation has eight sections:

- 💰 **Payments** — Track and manage monthly tuition
- ✓ **Attendance** — Mark students present or absent
- ✉ **Messages** — Read parent messages sent through the portal
- ▶ **Videos** — Upload and manage practice videos
- 📅 **Events** — Add and remove studio events
- 📷 **Photos** — Upload photo albums
- 📊 **Analytics** — View portal usage data
- ⚙ **Settings** — Edit student list, PIN, and FAQs

MANAGING PAYMENTS

5

View payment status for the current month

Tap 💰 **Payments**. You'll see all enrolled students with their payment status for the selected month. Use the day filter at the top to narrow by class day.

6

Mark a student as paid

Find the student and tap **"Mark Paid."** The status will update immediately and the date of payment is recorded automatically.

7

Generate and send a receipt

After marking a student paid, tap **"Receipt"** on their row. A receipt modal will appear showing student name, parent, class, month, and payment date. Tap **"Send to Parent"** to email it directly.

8

Undo a payment

If a payment was marked in error, tap **"Undo"** on the student's row to reset their status to unpaid.

9

Switch between months

Use the month selector at the top of the Payments section to view records for past or future months.

Tip: Payment data persists across sessions — you won't lose records when you close the browser.

TAKING ATTENDANCE

10

Select today's class day

At the top of the admin portal, tap the day buttons (Mon, Tue, Wed...) to filter to just the students in today's class.

11

Mark students present or absent

Tap **✓ Attendance**. For each student, tap **"Present"** or **"Absent."** The button highlights to confirm your selection.

PARENT MESSAGES

12

Read incoming messages

Tap **✉ Messages** to see all messages sent by parents through the Contact section of the parent portal. New messages are labeled **"New"** in gold.

13

Mark as read

Tap "✓ Mark as Read" on any message once you've reviewed it. This keeps your inbox organized and lets you track what still needs a follow-up.

UPLOADING PRACTICE VIDEOS

14

Add a new video

Tap ► **Videos**, then tap "Add Video." Fill in the title, a short description, and paste a YouTube or Google Drive video link.

Use YouTube for easy sharing — upload the video as unlisted so only people with the link can view it.

15

Remove a video

On any video card, tap "Remove" to delete it from the portal. This does not delete the original video from YouTube or Drive.

MANAGING EVENTS

16

Add a new event

Tap  **Events**, then tap "Add Event." Fill in the event name, date, location, and any notes. To include a poster image:

- Upload the image to Google Drive
- Right-click the file → **Share** → set to "Anyone with the link"
- Copy the share link and paste it into the **Poster URL** field

The portal will automatically convert the link to a displayable image.

17

Delete an event

On any event card, tap "Delete" to remove it. Past events can be removed once they're no longer relevant.

MANAGING PHOTO ALBUMS

18

Add photos to an album

Tap  Photos, then tap "Add Photo." For each photo:

- Upload the photo to Google Drive
- Right-click → Share → "Anyone with the link" → Copy link
- Paste the link in the Photo URL field
- Enter the Album / Event Name exactly as you want it displayed (e.g. *Recital 2025*)
- Optionally enter a date for the album

All photos with the same album name automatically group into one album. Use consistent naming.

19

Remove a photo

Tap an album to open it, then tap "Remove" under any photo to delete it. The album will disappear automatically once all its photos are removed.

SETTINGS — STUDENTS, PINS & FAQS

20

Add or edit a student

Tap  Settings. Under the Students section, tap "Add Student" and fill in the student's first/last name, parent first/last name, parent email, class day, time, and a 4-digit PIN for the parent's login.

21

Update a student or reset a PIN

Find the student in the list and tap "Edit." Update any field and save. If a parent forgets their PIN, you can reset it here and let them know the new one.

22

Edit FAQ questions

Scroll to the FAQ section under Settings. Tap "Add FAQ" to write a new question and answer, or tap "Delete" on an existing one to remove it. Changes appear instantly in the parent-facing FAQ tab.

ANALYTICS

23

View portal usage

Tap  Analytics to see how often the portal is being used — including login activity, which sections parents visit most, and overall engagement trends.

24

Clear analytics data

Tap "Clear Data" to reset the analytics log. This is useful when starting a new semester or school year.

Quick Reference

PARENT — AT A GLANCE

- Login with your email + 4-digit PIN
- Check monthly payment status in 💰 Payments
- View your child's attendance in ✓ Attendance
- Watch practice videos in ▶ Videos
- Browse upcoming events in 📅 Events
- View photo albums in 📷 Photos
- Send questions via 📞 Contact
- Read answers in the FAQ tab
- Always sign out when done

ADMIN — AT A GLANCE

- Switch to Admin view → enter password
- Mark payments + send receipts in 💰 Payments
- Take attendance by class day in ✓ Attendance
- Read parent messages in 📧 Messages
- Upload videos via YouTube/Drive link
- Add events with optional poster image
- Add photos to albums by matching event name
- Manage students + PINs in ⚙ Settings
- All data syncs to Google Sheets automatically
